Welcome to Barcelona, (Spain)

The Centre de Restauració i Interpretació Paleontològica - CRIP (Restoration and Interpretation Center of Paleontology) in Els Hostalets de Pierola, Barcelona, is excited to host the 2nd International Conservation Symposium-Workshop of Natural History Collections in Barcelona (Spain) from May 6-9 2015. This second edition is organized with Smithsonian National Museum of Natural History of Washington, the National Museums Scotland of Edinburgh and the National History Museum of London.

The main purpose of this 2nd Symposium-Workshop is to emphasize all those concepts related to protection and conservation of Natural History Collections.

In this edition, we plan to cover:

- Conferences by international professionals.
- Attendees’ communications.
- Poster presentations.
- Practical classes and experience exchanges.

We would like to avoid all those theoretical lectures that are useful only for a few professionals working in this field. Our aim is to focus towards a practical point of view, which will achieve a better learning and gain international importance. For this reason, we will combine conferences given by an interdisciplinary team of conservators from world renowned collections. There will be time for attendees’ communications, as well as poster presentations, in order to find global solutions.

Following the Symposium we propose producing a publication. All the talks, attendee’s presentation and posters would be included.
ORGANIZING COMMITTEE:

Conveners:

- **Sandra Val**
  Head Department of Conservation-Preparation, Restoration and Interpretation Center of Paleontology CRIP
  Barcelona Spain

- **Steven J. Jabo**
  Research Assistant/Preparator of Paleontology, Smithsonian National Museum of Natural History
  Washington USA

- **Vicen Carrió**
  Geological Conservator/Preparator
  National Museums Scotland
  Edinburgh Scotland

- **Chris Collins**
  Head of Conservation
  Sciences Facilities Department- Conservation Centre
  National History Museum
  London UK

All Committee:

- **For questions or comments** contact:
  Sandra Val – sval@crip.cat

- **Abstracts** of conferences, attendee’s presentations and posters, as well as questions regarding them must be sent to:
  Domingo López Department of Conservation-Preparation CRIP – dlopez@crip.cat

- **Registration form**, as well as questions regarding them must be sent to:
  Rubén García – Department of Biodiversity CRIP rgarcia@crip.cat

- **Logistic**:
  Judit Llopart- Coordinadora Tècnica CRIP jllopart@crip.cat
  Cheyenn Rotgers - Department of Paleontology CRIP chrotgers@crip.cat
  Raül Carmona - Department of Paleontology CRIP
  Ferran Guinovart – Conservator & Restorer
  Andrés Santos - Paleontologist Researcher
  Begoña Poza - Paleontologist Researcher
Program

In this circular we specify the names of our international speakers and the topics of their presentations. We have specified themes and locations of workshops. Names and titles of oral and poster presentations will be announced after the registration deadline. The organizing committee reserves the right to modify the original program if it is logistically necessary.

WEDNESDAY, MAY 6TH 2015

Montserrat Mountain: Montserrat is a mountain, a sanctuary and a monastery. The mountain of Montserrat is a massif that towers over the right bank of the Llobregat River. This massif is one of the highest and rockiest sections in the Prelitoral Catalan mountain chain. The Monastery of Montserrat perches 725 metres above sea level, whilst, at an altitude of 1,236 metres, Sant Jeroni is the highest point in the massif. In the Monastery is Our Lady of Montserrat, popularly known as La Moreneta (the Dark One), due to the dark colour of her skin, is a truly beautiful 12th-century Romanesque polychrome carving. Pope Leo XIII proclaimed Our Lady of Montserrat Patron Saint of Catalonia in 1881. In 1947; the image was enthroned in a silver altarpiece, paid for by popular subscription and installed in the upper section of the basilica apse. [http://www.montserratvisita.com](http://www.montserratvisita.com).

After the visit to the mountain, you can visit one of the most important cava in Sant Sadurní d’Anoia. Also, you can eat in our nice town, Els Hostalets de Pierola, where you will find our Restoration and Interpretation Center of Paleontology - CRIP. You will enjoy with our gastronomy and their friendly people, also you will know the importance of our most important paleontological sites of Miocene.
Abstract submission

We would like this Symposium-Workshop to be a space for sharing ideas, knowledge and techniques with other professionals working in this field. For this reason, we invite you to participate with an oral or a poster communication. In order to do so, you need to submit an abstract indicating if your presentation will be in oral or poster form. Oral communications will be of 20 minutes. Time will be monitored to be keep program on time.

Submission dates:
The last day for submitting an abstract is **March 13th, 2015**.
You must indicate the title of your abstract in your registration form, specifying if your communication will be in an oral or poster form.

Submission process:
All abstracts must be sent via e-mail, as an attachment, in **pdf format**. They must all include the following information:

**COMMUNICATION TITLE**, CENTERED, CAPITAL LETTERS AND BOLD. ITALIC IF THE WORD IS IN LATIN. ALL TEXT SHOULD BE WRITTEN IN CALIBRI, SIZE 9PT AND JUSTIFIED. SINGLE INTERLINE. PHOTOGRAPHS SHOULD NOT BE INCLUDED WITH THE TEXT, THEY SHOULD BE IN AN ANOTHER FOLDER.

Surname(s), Initial(s)., Surname(s), Initial(s)., Surname(s), Initial(s). & Surname(s), Initial(s).,

(Example: Val-Molina, F.J. & García-Martínez, V.D. & López, M.)

As you can see, authors are all aligned to their left and no in the centre. If there are two initials together, an space in between both letters should be left (F.J., V.D.)

1 Name of the Institution, postcode (without street or number, only locality, postcode and country) all those spaced by colon; then semicolon, colon and write e-mail without a full stop at the end

2 Example: Centre Restauració i Interpretació Paleontològica (CRIP) Els Hostalets de Pierola, Barcelona, Spain; correoelectronico@crip.es

Abstract
You should present your work in a **maximum of 150 words**, indicating the aim of the work or research. The abstract should reflex both the results and the principal conclusions of the work. The keywords will be added too at this point.

**Keywords**: 4

All abstracts will be reviewed, and their acceptance will be notified by the **30th March of 2015**.

All abstracts must be sent via e-mail to the organizing committee Domingo López: dlopez@crip.cat
**Poster guidelines**

**Design**

- Maximum length 1.20m and maximum width 1m.
- A descriptive title (banner format) must be included in the upper part of the poster. It must be easy to read from 3m apart.
- Author(s) name(s) and institution(s) must also be included.
- The poster main text must begin with an introduction and end with some conclusions. These two parts are very important because very often they are the ones most of the attendees read. An abstract written in English must also be included.
- All the information included in the poster must be intuitive and well organized in columns. The text must be readable from 1m apart.
- All posters must be self-explanatory, so that they can be understood without the help of the authors(s).
- Figure captions must be used, so that figures can be understood without having to read the whole text.
- Posters can be presented in Spanish. However, we recommend that they are written in English, as long as they are revised and they contain no grammatical errors.
- We strongly recommend that poster presentations should be creative. All posters must be designed in portrait format (vertical) and not landscape, because of poster holders.

**Contents**

- The introduction section must explain the basis of the work done and indicate the direction taken by the author(s)
- The methodology used must be presented clearly.
- All the results must be presented clearly in an understandable way, and they must confirm the final conclusions.
- The conclusions must be consistent with the problems or questions explained or proposed in the introduction.

**Language**

The languages used during the 1st International Conservation Symposium – Workshop will be Spanish and English. There will be simultaneous translation in these two languages: Conferences & attendee’s presentations, but the workshops will be only in English.
Registration information

Registration price is:

- **275€** if you register *before February 27th 2015.*
- **350€** if you register *after February 27th 2015.* Registration deadline is *April 17th 2015.*
- **175€** Registration grants.

www.crip.cat

Registration price includes daily breakfast and lunch.

**Please send registration form together with a bank payment proof to:** inscripcions@crip.cat
